

Read Either Heath Biology pg 19-24 or Blue Modern Biology pg. 19-25

Know:

Define biogenesis/abiogenesis/spontaneous generation

Describe the importance of control in an experiment

Know what these guys did and which theory they were trying to prove:

Needham

Spallanzani

Redi

Pasteur

Describe the influence those guys had on the theories listed above.

This is not a graded assignment; I will not collect or look at it; you will be expected to know the material.

*By Friday 1/29*
