Meet Youth Success Coalition Partner: The LEO Program

L

The LEO (Learn and Empower Oneself) Program is an evidence-based, interactive substance prevention program that seeks to empower youth to understand their unique brains and quickly improve resilience, adaptability, and fearlessness in a rapidly changing world. By promoting higher-brain activation and resiliency through key tools, youth can reduce stress and anxiety, and improve memory, creativity, self-awareness, and overall quality of life – each of which are key factors in preventing substance use.

The LEO Program serves youth ages 12-20 and works with school and community partners to deliver program curriculum and one-on-one mentorship to youth. The LEO Program operates two separate contracts funded through the Brighter Futures Initiative Substance Prevention grant via the Wisconsin Department of Children and Families in both Adams County (operated by Adams County Health and Human Services in partnership with CW Solutions) and Wood County (operated by Wood
