Today we observe Christopher Columbus. The first expedition led by Christopher Columbus sighted land somewhere in the Bahamas on October 12, 1492. Columbus' voyages are recognized as the start of sustained contact between peoples in the eastern and western hemispheres. The process of colonization that he began brought new forms of wealth to Europe, expanded the market for African slaves, and led to loss of land and lifeways for the indigenous peoples of the Americas. The federal holiday, Discoverers' Day, is celebrated the second Monday in October.

Today's Seven Mindsets Quote of the Day:

"I'm always interested in challenging myself and pushing, and seeing how far I can go." Taraji P Henson

CONGRATULATIONS to today's pride winner Teegan Olson! Please stop in the main office to pick up your Prize.

Where were you on the morning of August 21, 2017? It's OK if you don't remember. Here's a more important question: Where will you be on the morning of Saturday, October 14? If you're in town, join WRPS teachers to view a partial solar eclipse. The moon will block a little over half of the disc of the sun. If the weather's good, you'll have options to safely view the eclipse while protecting your vision. We'll be set up from 10:15 until 1:00 near the spire at LHS and on the west side of the YMCA parking lot.

Interact/Cool 2 Be Kind members, please remember to attend our full-club meeting during RPT tomorrow, October 13, in room 216. Report directly to the meeting; we will check you in via Positive Attendance.
