Today is Bullying Awareness Day, established as one of 21 Wisconsin Public School Observance Days to bring attention to the harmful effects of bullying in the school setting. Bullying may negatively impact a student's connection with school, their engagement with the curriculum, and their overall ability to learn. Bullying prevention is critical to building a school environment conducive to learning and where students feel safe at all times. Observed annually on Wednesday of the fourth week in September.

Today's Seven Mindsets Quote of the Day:

"Each friend represents a world in us, a world not born until they arrive, and it is only by this meeting that a new world is born." Anais Nin
