Professional Development Day Understandings:

- All teachers will follow the above schedule on Professional Development Days.
- Professional staff will not be released for practices or rehearsals on professional days until 3:15.

The purpose of professional days is to achieve the following:

- Meet the district and building level professional development goals as set out in the WRPS Professional Development Plan.
- Provide collaboration time for teachers.
- Provide professional development for teachers at the building and District levels.
- Provide a cost effective means of providing professional development.
- Provide professional development time without taking teachers out of the classroom.

Definitions:

Building PD Initiatives - Building based activities that are determined by each building's Leadership Team and explained in the building's Professional Development Plan.

Teacher Collaboration - Two or more teachers working together to evaluate student performance (analyze assessments), plan lessons and units, or enhance teaching strategies. **Special and individual projects may be approved at the discretion of the building principal.** Administrators or teachers may plan a meeting, but teachers may choose whether or not to attend.

District/Grade Level Meetings - Activities determined by Curriculum Department, teacher leaders, CII Chairs, and administration.

Professional Learning Community (PLCs): An ongoing process in which educators work collaboratively in recurring cycles of collective inquiry and action research to achieve better results for the students they serve. The three ideas that drive the PLC process include a focus on learning, a collaborative culture and collective responsibility, and a results orientation. PLCs are committed to identifying Essential Learning Outcomes (ELOs), administering common assessments to measure student progress toward those ELOs, and collaborating and modifying instruction based on data collected to improve outcomes on common assessments.
