Adopted	December 2, 2024

7310 - **DISPOSITION OF PERSONAL PROPERTY**

The Board requires the Superintendent to review the personal property of the District periodically and to dispose of that material and equipment which is no longer usable in accordance with the terms of this policy. The disposition of real property is governed by Policy 7300 - Disposition of Real Property.

"Personal property" means property other than real property. It may be tangible, having physical existence, such as vehicles, equipment, or instructional materials or intangible, such as intellectual property.

"Real property" means land, including land improvements, structures, and appurtenances thereto, but excludes moveable machinery and equipment.

A. Instructional Material

The District shall review instructional materials (i.e., textbooks, library books, manuals, support materials, etc.) periodically to determine the relevance of such materials to the present world and current instructional programs. The following criteria will be used to review instructional materials for redistribution and possible disposal:

1. concepts or content that do not support the current goals of the curriculum
2. information that may not be current, or
3. worn beyond salvage

B. Equipment

For purposes of this policy, equipment shall mean tangible personal property (including information technology systems), a unit of furniture or furnishings, an instrument, a machine, an apparatus, or a set of articles which retains its shape and appearance with use, is nonexpendable, having a useful life of more than one (1) year, and a per-unit cost that equals or exceeds \$10,000 as a single unit and does not lose its identity when incorporated into a more complex unit.

The District shall inspect the equipment used in the educational program periodically, to determine the condition and usability of such equipment in the current educational program. Should the equipment be deemed no longer

serviceable or usable, the following criteria will be used to determine possible disposal:

1. repair parts for the equipment no longer readily available;
2. repair records indicate the equipment has no usable life remaining;
3. obsolete and/or no longer contributing to the educational program;
4. some potential for sale at a school auction; or
5. creates a safety or environmental hazard.

C. Disposition

The Superintendent is authorized to dispose of obsolete instructional and other property by selling it to the highest bidder, by donation to appropriate parties, or by proper waste removal in compliance with 2 C.F.R. 200.313(e) and 200.314. Disposal of surplus property purchased with Federal funds shall be disposed of in accordance with Federal guidelines.

When there is a residual inventory of unused supplies exceeding \$10,000 in aggregate value at the end of the period of performance and the supplies are not needed for any other Federal award, the District may retain or sell the unused supplies. Unused supplies means supplies that are in new condition, not having been used or opened before. The aggregate value of unused supplies consists of all supply types, not just like-item supplies. The Federal agency or pass-through entity may be entitled to compensation in an amount prescribed in 2 C.F.R. 200.314.

When original or replacement equipment acquired under a Federal award is no longer needed for the original project or program or for other activities currently or previously supported by a Federal agency, the District shall request disposition instructions from the Federal agency if required by the terms and conditions of the Federal award. Disposition of the equipment will be made in accordance with disposition instructions of the Federal agency.

Except as provided in §200.313 Federally-owned and exempt property, paragraph (b), or if the Federal awarding agency fails to provide requested disposition instructions within 120 days, items of equipment with a current fair market value in excess of \$10,000 (per unit) may be retained by the non-Federal entity or sold. The Federal agency is entitled to an amount calculated by multiplying the current market value or proceeds from sale. If the equipment is sold, the Federal agency may permit the non-Federal entity to deduct and retain from the Federal share \$1,000 or ten percent (10%) of the proceeds, whichever is less, to cover expenses associated with the selling and handling of the equipment.

The District may transfer title to the property to the Federal Government or to an eligible third party provided that, in such cases, the District shall be entitled to compensation for its attributable percentage of the current fair market value of the property.

When included in the terms and conditions of the Federal award, the Federal agency may permit the District to retain equipment, or authorize the Wisconsin Department of Public Instruction (DPI) to permit the District to retain equipment, with no further obligation to the Federal Government unless prohibited by Federal statute or regulation.
