

110 EDUCATIONAL PHILOSOPHY

The Board of Education of the School District of Wisconsin Rapids recognizes and accepts its responsibility for the education of all the students of the school district. All students shall be provided with equal educational opportunities as outlined in Board policy, state, and federal law.

The Board in an ongoing dialogue with the community they serve, has developed some governing values and a mission statement that acts as the foundation for the work of the school district, as follows:

We Believe:

Each student is the first consideration of the educational process.

All students can learn.

Learning is a life-long process.

In a safe, caring, and respectful learning environment.

All students should become effective citizens of the community, state, nation, and the world.

Meaningful home, school, and community involvement is vital to continuous improvement.

MISSION STATEMENT

Working together with home and community, we are dedicated to providing the best education for every student, enabling each to be a thoughtful, responsible contributor to a changing world.
