

153 SCHOOL BOARD LEGISLATIVE PROGRAM

The Board, as an agent of the State, must operate within the bounds of state and federal laws affecting public education. If the Board is to meet its responsibilities to the residents and students of the community, it must work vigorously for the passage of new laws designed to advance the cause of good schools and for the repeal or modification of existing laws that impede this cause. To this end the Board will:

1. Communicate legislative issues through the appropriate Committee of the Board of Education.
2. When appropriate, work for the achievement of legislative objectives with other concerned groups and individuals.
3. Seek both direct and indirect representation of its position on pending legislation with appropriate state and federal legislators and legislative committees.
