

222.21 MEDICAL LEAVES OF ABSENCE

During an extended illness or disability, administrators, principals, psychologists, supervisors and other special employees not covered by a collective bargaining agreement may elect to use their accumulated sick leave or may elect an unpaid medical leave of absence, at their discretion.

If the option of an unpaid medical leave of absence is selected, the administrator may be eligible for long-term disability payments under the long-term disability insurance program paid for by the Board of Education.

Administrators electing to take an unpaid medical leave of absence shall be responsible for the payment of medical, dental, and life insurance premiums in accordance with established procedures following utilization of available sick leave.

The Board of Education shall pay the insurance premiums for administrators who continue to use their accumulated sick leave, for as long as accumulated sick leave is available.
