

253 POLICY IMPLEMENTATION

All School District operations shall be carried out in accordance with state law, Board policies, and district-wide administrative rules. Each employee and student shall be responsible for following the approved policies and rules until such time as they may be modified.

In an attempt to ensure equitable and just treatment for all, suggestions for changes in, or additions to existing policies and rules shall be encouraged from employees, parents, students, and the community at large.

The Superintendent shall be responsible for informing students and employees of existing policies and rules, and for seeing that they are implemented by and through the appropriate persons.
