

373 STUDENT SOCIAL EVENTS AND ACTIVITIES

A number of School District goals are supported through the sponsorship of well-managed social events and activities. Parents expect that their children will learn to feel at ease in social situations. These activities play an important role in a well-rounded school program.

The building principal is authorized to approve all school social events and activities. Issues related to, but not limited to staff sponsorship, event and student supervision, police supervision, etc. are at the discretion of the building principal.
