

## **443.1 STUDENT DRESS**

A student's dress or hair style, like his/her conduct is and should be a personal matter as long as such dress does not endanger students' health or safety or interfere with instruction. In any situation, good personal grooming is an asset.

In essence, one's personal appearance should not attract undesirable attention but should be neat, clean, in good taste and above all, appropriate. If necessary, the administration may establish more definitive guidelines.

Specific student dress expectations will be outlined in school Student Planners.
