

751 STUDENT TRANSPORTATION

The school district will provide transportation for students under provisions of state law and regulations. The superintendent is responsible for administering student transportation services so as to:

1. provide for maximum safety of students.
2. supplement and reinforce desirable student behavior patterns.
3. assist students with disabilities appropriately.
4. enrich the instructional program through carefully planned field trips as recommended by the staff.

The Board of Education shall provide transportation at District expense for all eligible high school level students who live two miles or more from their school of attendance. Eligible elementary and middle school level students who live .5 miles or more from their school of attendance will be provided transportation, as well as students needing transportation due to a disability or who reside in areas determined to be unusually hazardous, in accordance with state law and established procedures. Appeals to hazardous areas determinations may be made in accordance with established procedures.

The school district may also provide transportation to students who are not required to be transported, in accordance with established guidelines.

School buses will not be used for non-school purposes, or by non-school groups.
