 Washington Elementary, WRPS

July 2020

Hello Washington Families,

As the summer days fly by, we can see the school supplies starting to fill the aisles at our local stores and we all hope that we will see everyone together again soon!

What can we ALL do to help make sure our students are IN school on September 1st?

1. Keep reading the summer updates from Mr. Broeren. [Click here](#) for the most recent update. This will be the best place to see what options the district will be providing to ensure ALL students receive a quality education no matter the situation and provide your feedback.
2. Please, please, please consider taking the advice of our local health care providers regarding the following safety precautions below. These will help us get back IN school and stay there! (The research backs it up!)

Watch for details on Meet and Greet coming up on August 26th. It won't look the same as years past, but we do look forward to seeing you. Stay healthy and take care!

Kelly Schaeffer, Principal
